

## Our Mission

We aim to make a positive impact on the hearts & minds of the people of Zimbabwe for Christ through educational camps, inspirational retreats & community events in a picturesque setting.

We at Lasting Impressions believe that when individuals are taken out of their comfort zones and into the outdoors this creates an opportunity to explore new heights of learning. We have found that a strong work ethic, building integrity, being creative, and having fun all help to build community and group dynamics. We endeavour to tap into the immense potential of individuals, bringing out their best.

## Our logo...

The Lasting Impressions Logo was carefully and creatively put together by a graphic artist by the name of Jerry Jamison.

We wanted it to represent the different types of camps we do as well as represent Zimbabwe and our Christian foundation. The two

The place God calls you  
to is where your deep  
gladness and the world's  
deep hunger meet.

-Frederick Buechner

## The camp...

Beginning in 1997, Alistair & Shelley Croudace had a vision for what they wanted to do here in Zimbabwe. A vision of teaching kids about God's creation and His character through environmental education and leadership camps. Since then, God has grown this tiny camp into the amazing place that it is today...more than the Croudace's could ever have imagined. Today, Lasting Impressions not only hosts environmental and leadership camps, but also community & business events, church groups, weddings, team building & business seminars and so much more as seen below. There are big dreams coming to fruition and God is continually proving, our dreams are just too small for what He has planned!

colors on the face represent the fact that we deal with a variety of racial and ethnic groups. The four symbols around the face represent God's creation but they also represent the dove of peace; the sable, one of Zimbabwe's most exquisite antelopes; the fish represents that we are God's fisher's of men (or kids); and the final symbol represents the crown of thorns reminding us of God's sacrifice and love for us.

The light and dark represents our aim to bring light and hope to people that are in darkness and despair. We also like it because it is consistent with the artistic expression of the Zimbabwean people.

## At camp...
